5. TAXATION

The overseas withholding tax of US\$5,664,779 (6 months to 31st December 2017: US\$6,835,551) includes an amount of US\$221,762 charged on certain purchases and disposal of investments and dividend received during the period. As at 31st December 2018, the Fund made provision of US\$5,910,837 (as at 30th June 2018: US\$6,038,702) for withholding tax on interest income from PRC non-government securities. The amount is included in "other payables" in Statement of Net Assets. In addition, according to Circular 36, interest received from government bonds and local government bonds are exempted from VAT. However, the prevailing VAT regulations do not specifically exempt VAT on interest received by foreign institutional investors. Hence, interest income on non-government bonds (including corporate bonds) would be subject to 6.72% VAT and local surtaxes.

During the year ended 31st December 2018 and 30th June 2018, the Manager does not consider that the potential VAT and surtaxes exposure arising from the Fund's accumulated interest income received from PRC non-government bonds since 1st May 2016 to be material.

9. SUPPLEMENTAL RATIOS

	Period from 1st January 2018 to 31st December 2018	Period from 1st January 2018 to 31st December 2017
Expense ratio ⁽¹⁾	0.19%	0.18%
Turnover ratio ⁽²⁾	8.45%	8.05%

Notes:

- The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at the period end was based on total operating expenses for the period from 1st January 2018 to 31st December 2018 of US\$7,022,214 (from 1st January 2017 to 31st December 2017: US\$6,888,221) divided by the average net asset value for the period from 1st January 2018 to 31st December 2018 of US\$3,750,639,294 (from 1st January 2017 to 31st December 2017: US\$3,926,268,223) for the period. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Fund does not pay any performance fee. The average net asset value is based on the daily balances.
- The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales, being purchases of US\$308,696,062 (2017: purchases of US\$316,658,943) of the underlying investments, divided by the average daily net asset value of US\$3,651,869,492 (2017: US\$3,935,462,307). In line with the recommendation of Statement of Recommended Accounting Practice 7 "Reporting framework for Unit Trusts" ("RAP 7") issued by the Institute of Singapore Chartered Accountants, total value of purchases or sales for the current period do not include brokerage and other transaction costs.

10. EVENT OCCURRING AFTER STATEMENT OF NET ASSETS DATE

Subsequent to the period end, the Fund announced a dividend distribution of US\$1.76 per unit on 15th January 2019. The dividend was paid on 31 January 2019. The net assets attributable to holders of redeemable units as at 31st December 2018 has not accrued the dividend distribution payable as mentioned above.

The Trustee appointed HSBC Bank Plc (connected person of the Trustee) as the stock lending agent for stock lending transactions after the year ended 30th June 2018.

On 30 August 2018, the Standing Committee of the State Council proposed a three-year exemption from Corporate Income Tax (CIT) and Value Added Tax (VAT) on interest income derived by overseas investors from their investment in China bond markets. However, the specific tax regulation has not been issued as at 26th September 2018 and there are some issues such as the effective date of the exemption and applicable participants for the exemption, etc. remain unclear as at 26th September 2018. The impact can only be assessed when there are further updates.
